

Mind-Field Training is a professional and practical organisation that specialises in providing courses in Clinical Hypnotherapy, Personal Development and Corporate Training Programmes throughout the UK.

The school is fully accredited and validated by the General Hypnotherapy Register, the Hypnotherapy Society and the Hypnotherapy Association, ensuring our courses meet with the required National standards criteria. We constantly strive to improve and maintain the quality of our training programmes.

At Mind-Field Training, we pride ourselves on giving on going support to our students and graduates whenever they need it. Continuing professional development groups are held on a regular basis, so that students and graduates are kept up to date with the latest information in the field of hypnotherapy as well as networking with each other.

Apart from learning wonderful new skills, students emerge from our courses having increased confidence in themselves, often having experienced life changing moments during the time spent with us. Which in turn gives them a sense of purpose and satisfaction in their ability to help others.

*"What lies before us and what lies behind us are small matters to what lies within us, And when we bring what is within out into the world, miracles happen"*

We hope you consider spending some time with us to begin a journey and create new beginnings.

Our courses offer structured, creative learning in a friendly informal environment. Maintaining a natural balance between theoretical and practical study. We are fully aware that students often have work or family commitments and we do our best to be flexible and accommodating.

Class sizes are kept to a maximum of twelve to ensure optimum personal tuition and support.
